To whom it may concern

Reference for Marzena Sachajko-Polish.edu.pl

Marzena Sachajko gave me Polish language lessons at home in my apartment several times per week over a two year period. Starting from the introductory Polish lessons, which were essential for an Englishman living in Poland, she progressed to specifically design lessons to assist me in my normal work and social environment.

Being a mature person, who in the past has had difficulty learning a foreign language, Marzena proved to be an excellent tutor for me. She was very patient and always willing at my request to revisit topics I found difficult to master. She was very flexible in terms of arranging the lessons to fit into my busy work schedule.

In addition to greatly improving my written and verbal communication in Polish, Marzena help me to understand the influence of the Polish Culture on the people's behaviour.

I have no hesitation in recommending Marzena to others, who like me, require a patient tutor, who is willing to shape the lessons to satisfy the pupil's needs.
